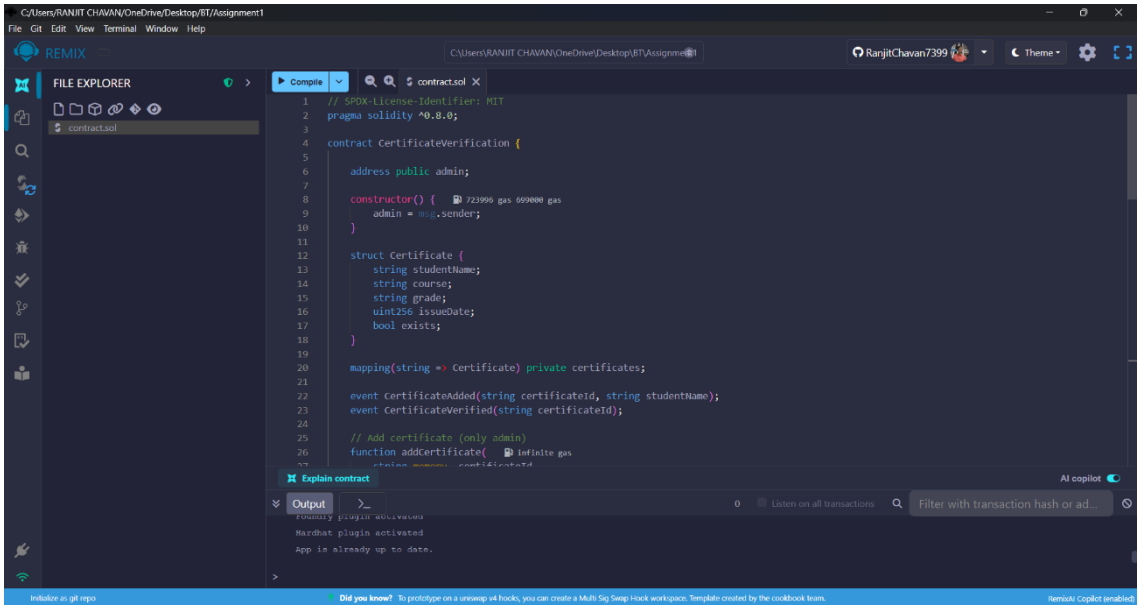
Name- Ranjit Chavan
PRN- 123B1B103

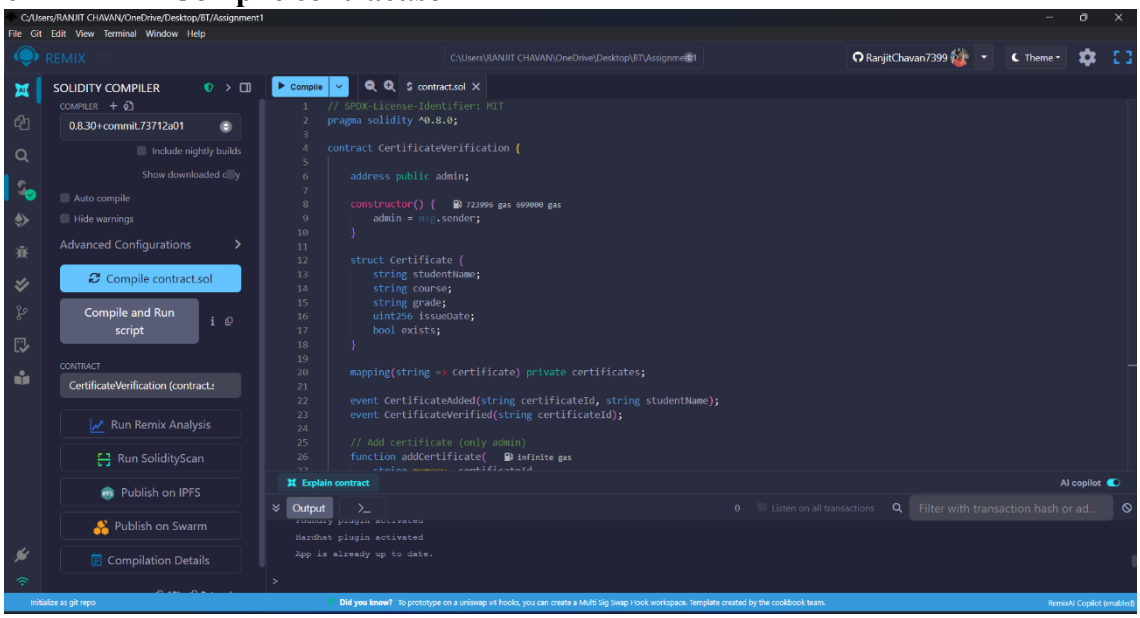
Assignment no 1

Compilation Steps

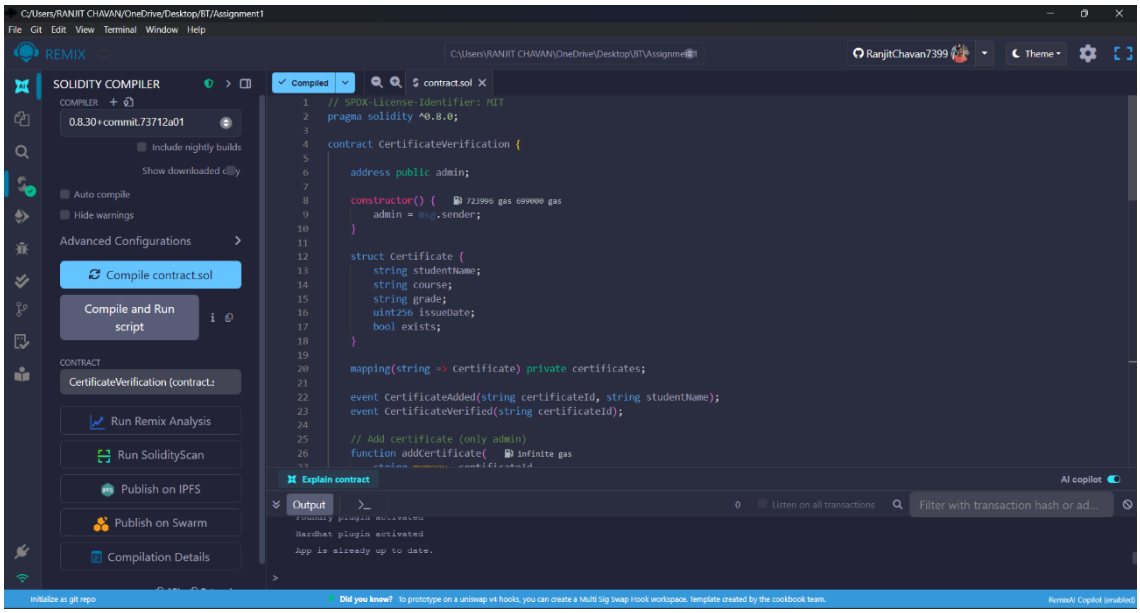
1. Open Remix IDE
2. Create a new file named contract.sol
3. Write the smart contract code



4. Go to the **Solidity Compiler** tab
5. Select compiler version **0.8.x**
6. Click on **Compile contract.sol**

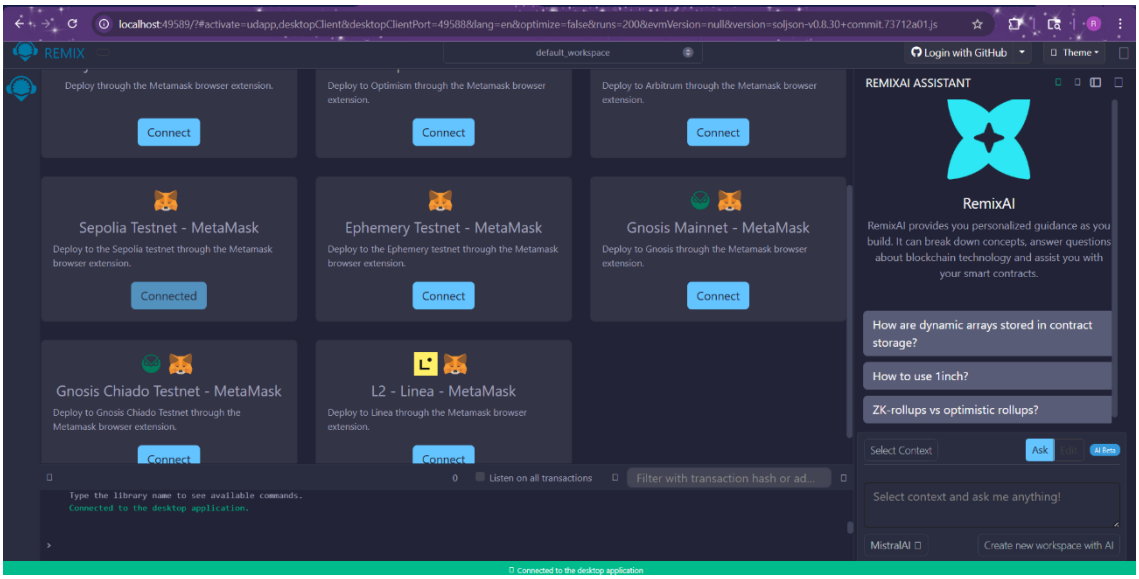


7. Check for “Compilation Successful” message

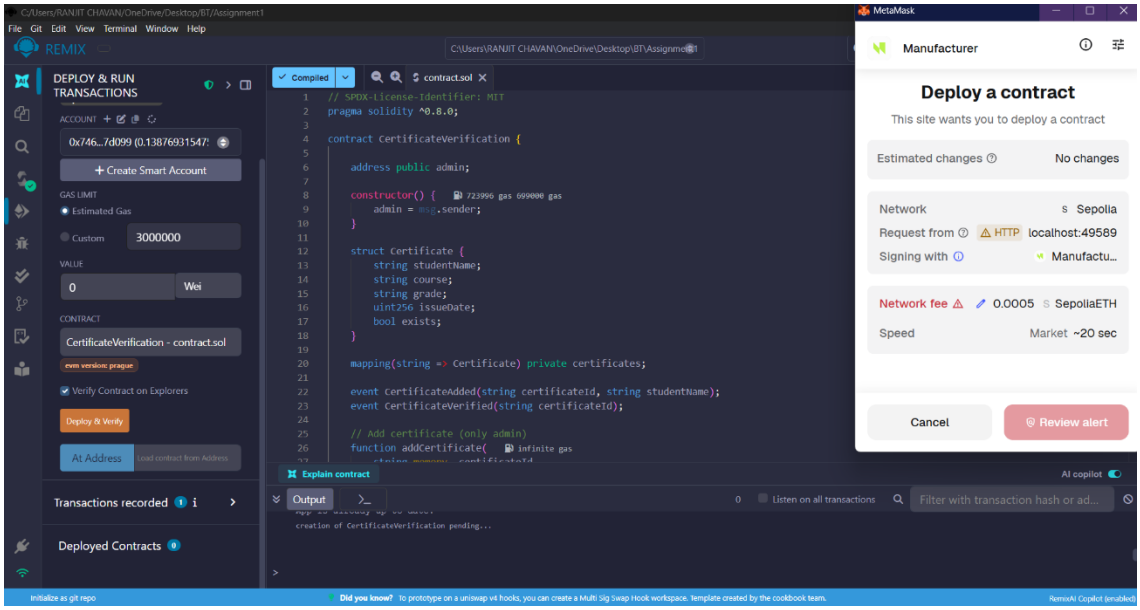


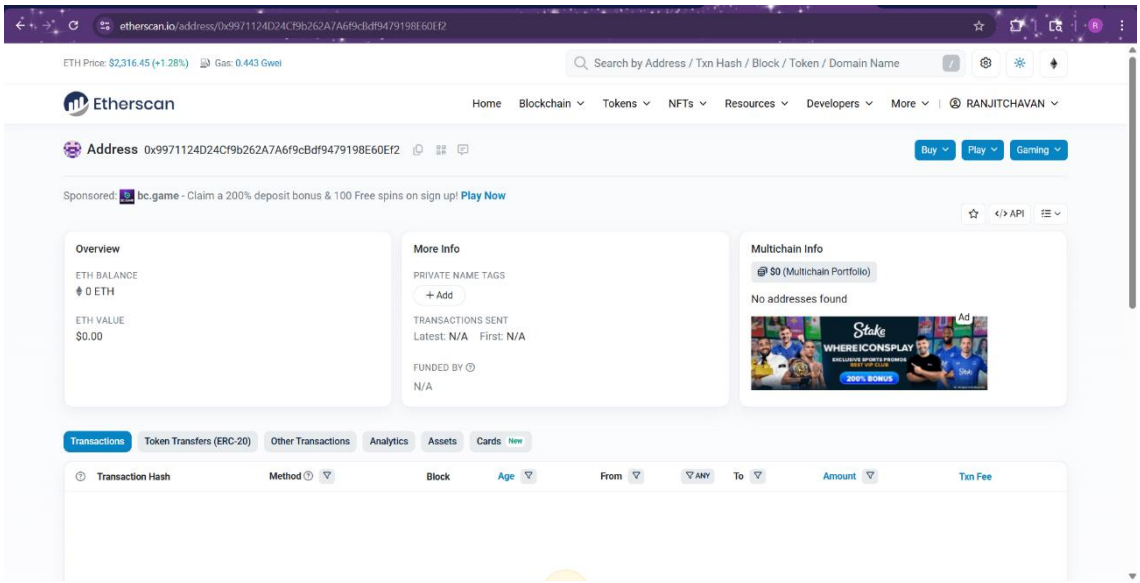
Deployment Steps

1. Go to the **Deploy & Run Transactions** tab in Remix IDE
2. Select Environment:
   - **Browser Wallet (sepholia testnet) or**
   - **Remix VM** (for testing)



3. Select your contract name
4. Click on **Deploy**
5. Confirm the transaction (if using MetaMask)





6. After deployment, the contract will appear in **Deployed Contracts** section
7. Copy the **Contract Address** and check on etrescan
